AIA MINNESOTA MATRIX NEWSLETTER

December 2024

Looking to the Future of AIA Minnesota

by Amy Kalar, AIA, NOMA, AIA Minnesota President

As I reflect on the past year, I am filled with excitement and optimism for the future of our profession and AIA Minnesota. While we've faced challenges, it's clear that the opportunities ahead are even greater. As our profession evolves to address critical issues like climate resilience, social justice, and the impact of artificial intelligence, we continue to play a vital role in shaping the built environment and the communities we serve. This is an incredibly dynamic and transformative time to be part of our profession, and serving as your president has

been a true honor. I am deeply energized by what we can achieve together in the years ahead.

Throughout my time as president, I've had the privilege of engaging with many of you in conversations about the future of our profession. These discussions have been invaluable in shaping my own perspective and guiding our collective work. Listening to diverse viewpoints has reinforced the importance of open dialogue and mutual respect as we chart a course forward. It is through these conversations — where every voice is heard — that we build the trust and shared vision necessary to navigate the challenges and opportunities that lie ahead.

I've also been deeply impressed by the willingness of so many of you to share your experiences, ideas, and concerns with the board. This openness is essential as we continue to shape the future of AIA Minnesota. Every conversation, every piece of feedback, helps us better understand your priorities and the issues that matter most to our profession. As we look ahead, we'll continue to rely on your input to guide our efforts and ensure we are meeting the needs of our members.

One impactful way you can contribute to shaping our future is by participating in the [AIA Minnesota Future Forward Survey](#). This survey is an opportunity for you to share your thoughts on the issues that matter most to you — whether it's the direction of our organization, the challenges facing the profession, or the

opportunities you see for growth. Your insights will be crucial as we plan for the future and ensure AIA Minnesota remains a strong, relevant, and supportive organization for years to come.

Looking forward, I am filled with confidence and excitement about what lies ahead – especially under the guidance of our next president – **Jennifer Christiaansen, AIA**. Our profession is evolving, and so too is AIA Minnesota. With the energy, creativity, and dedication that I've seen throughout this year, I have no doubt that we will continue to be a powerful force for positive change and leader amongst AIA components throughout the country. Together, we will continue to push the boundaries of design, advocate for the built environment, and strengthen our community.

AIA MINNESOTA HONOR AWARDS AND COMMENDATIONS

2024 Honor Awards and Commendations Announced

At the November 13 Awards Celebration at A'24 MN, the 2024 Honor Awards jurors shared their selections for Honor Awards and Commendations for Excellence and the AIA Framework for Design Excellence measures the projects were cited for:

CALL TO ACTION

Volunteer for Search for Shelter 2025

Each year at Search for Shelter, volunteer architects, landscape architects, interior designers, and students create pro bono solutions for design projects submitted by Minnesota affordable housing and/or homeless nonprofit organizations. Design volunteers work in teams to create viable, graphic solutions and plans, to serve as visual tools

for agencies to use in obtaining further project funding, to promote their organization, and to serve as preliminary development/building plans.

The 2025 Search for Shelter design charrette will take place Saturday, February 1 – Saturday, February 8. The event includes in-person kickoff and closing gatherings, with teams working virtually, in-person, or in a hybrid format based on their preferences. Volunteers with all experience levels are welcome.

Apply to Serve on the Construction Codes Advisory Council

The Minnesota Department of Labor and Industry is seeking several professional members for the Construction codes Advisory council, which reviews codes, laws, rules, and standards related to building construction. Openings currently include: building accessibility, certified building official, energy conservation industry, heating and ventilation industry, and local units of government. The application window is open until December 3. [Learn more and apply »](#)

Architect Licensing Board Seeks Feedback

In late September, the [AELSLAGID board](#) (which licenses architects in Minnesota)

published notice in the [state register](#) of a request for comments on several proposed changes to their rules.

Among those listed was a broad call for interested parties to share their thoughts on “experience options for licensure as an architect for those who completed the Architect Registration Exam in another jurisdiction.”

Licensing board staff noted that this is not in reference to a fully-developed rule change proposal, but is rather an opportunity to provide direct feedback to them on issues of licensure to potentially inform a future rule-making process.

All of you, as individuals, are welcome to provide comments directly to the licensing board; you can do so by emailing [Kay Weiss](#) with your comments.

The AIA Minnesota board of directors established a [task force](#) to create recommendations to the licensing board. That task force has begun its work, and may choose to comment on behalf of the organization during this comment period as well.

Please reach out to [Sheri Hansen](#) if you have any further questions about either the AELSLAGID board process or the AIA Minnesota task force.

Apply for a Competitive Grant from DEED

The Minnesota Department of Employment and Economic Development (DEED) has several open grant programs that may benefit architecture firms and their clients. Current programs include energy transition and main street revitalization programs.

SB 2030 Program Updates and Educational Opportunities

Starting January 1, 2025, the SB 2030 Program will require participating buildings to achieve a 90% better-than-baseline requirements. Key program updates will also modify how cost-effectiveness is considered, how off-site renewable energy is treated, and which carbon emissions rates are used for electricity.

- December 10 1:00 - 4:30 pm (SB 2030 educational symposium at the Science Museum of Minnesota), additional details coming soon

Lake Superior Design Retreat

Mark your calendar for the **Lake Superior Design Retreat (LSDR) on March 7 & 8, 2025**, at Zeitgeist Arts in Duluth! Registration will open in early December. [Sign up here for our mailing list](#) to be the first to hear updates and when registration is open.

Four out of six speakers are lined up! Meet:

- [Bradley Greenwald](#) has performed opera, theater, music-theater, concert and recital repertoire with several Twin Cities' arts organizations. Bradley is the recipient of a Minnesota State Arts Board Fellowship in music, the McKnight Fellowship for Theater Artists, and a 2006 Ivey Award.
- [Ali Heshmati, AIA](#), is a senior architect at [Henning Larsen](#) and a founding partner at **Laboratory for Environments, Architecture, and Design**, a collaborative interdisciplinary firm with studios in USA and Norway. [LEADinc](#) is a progressive design laboratory whose guiding principle is the idea that creative architecture is rooted in the process of research, discovery and critique of existing conventions.
- [Ray Mattison](#) is the lead designer at Duluth-based [Design Eye Q](#), a creative industrial design studio. Design Eye Q has an exceptional product implementation record leveraging foundations in aesthetics, functionality, technology, and ergonomics.
- [Kate Buehler McWilliams](#) is an artist and historian who builds medieval musical instruments. These instruments — rebecs, vielles, citoles, and others — are precursors to the modern violin and guitar. She has built close to 100 instruments in her woodworking shop in Shoreview, MN, selling them to performers and universities worldwide.

The retreat will also feature two receptions, a screening of the film “How to Care,” produced by Dr. Jon Hallberg, 2023 LSDR speaker, and a TBD tour and hands-on activity or workshop.

Interested in sponsoring LSDR? Reach out to [Ann Mayhew](#) to learn more.
